HENRY L. EADS CANDIDATE FOR  
CONGRESS SPEAKS TO BIG CROWD

The first appearance of a candidate for the house of representatives took place at the city hall plaza last night when Hon. Henry L. Eads, an aspirant for the republican nomination, addressed a large and appreciative audience.

Mr. Eads, who was introduced by George U. Young, Mr. Eads proved himself to be an earnest and forceful speaker and frequently drew out the applause of the audience especially when he was discussing the shortcomings of the national administration in the handling of international affairs.

He made a comparison of industrial conditions under republican administration with conditions that have prevailed only in the present democratic administration, but of the earlier democratic administrations. Labor had never prospered, he said, except under republican rule. The war at present had intervened to mask the evils of the present administration and we had a temporary and unhealthy prosperity. But we had not been given what the democrats had promised but we had had imposed upon us a series of taxes, among them the war tax when there was no war, and yet the country has been facing one deficit after another.

Mr. Eads criticized Representative Hayden for his neglect to seek relief for the farmers under this valley from the burden of the cost of the reclamation project and for his failure to secure an amendment to the canal credit bill by which settlers under reclamation projects might avail themselves of the provisions of the bill.

In the concluding part of his address, Mr. Eads denounced the Mexican policy of the government, its failure to fulfill the pledges of the latest national platform to give protection to the lives and property of American citizens and generally its failure to uphold American traditions. Referring to his claims for the nomination and election, he said that if he should fail to accomplish more for the people of Arizona in two years than had been accomplished in the last five years he would not have the temerity to ask for a second term.

Mr. Eads was followed by Arnold Mandl, candidate for the republican nomination for state senator from this county. Mr. Mandl said that he had heard with interest the remarks of the democratic candidates for the nomination for the senate; he had heard them call one another crooks and liars, and he added, "I believe they spoke the truth, for they are all honorable men."

As to his own candidacy, Mr. Mandl said that there were certain things he would strive for if elected to the senate because they were necessary to the best form of government. He would favor a civil service system that would remove the abuses of appointments and take the government out of politics. He would also favor a budget system and he would pledge himself against the practice of filling the legislative halls and committee rooms with needless or worthless attaches, which had been a feature of the first and second legislatures.

A fire alarm which brought out the fire fighting machinery from the nearby station distracted attention from the speaker at this point. The meeting was an enthusiastic one and was well held until the close of the speaking.

SMALL COUNTESS HAS  
HAD MANY THRILLS

Miss Leonora Felicia Gzyzka, daughter of the Countess Gzyzka, formerly Miss Eleanor Patterson of Chicago has been the heroine of a thrilling series of kidnappings since the separation of her father mother. Several times one parent has stolen the child from the other and at present she is with her mother at Newport. Though the Countess Gzyzka is said to fear her daughter may be kidnapped again and taken to Europe. The small countess remains unharmed and happy.

fighting with the British. The war office announced today that the Germans were beaten back.

**Austrian Troops Withdraw**  
VIENNA, (Via London) Sept. 7.—Austrian troops have withdrawn before a threatening Rumanian envelopment to the heights of Olah Toplitz, south of Borna, Watra and twenty miles west of the Rumanian border, says the official statement issued at the Austro-Hungarian headquarters today. "On the Russian front the Austrian troops between the Zlota Lipa and the Dniester rivers also have been withdrawn."

**Germans Deny Defeat**  
BERLIN, Sept. 7.—Repeated attacks were made yesterday and last night by the French and British along the Somme front. Today's official announcement says German soldiers were entered but that assaults at other points were repulsed.

"The battle of the Somme continues and fighting is taking place on the whole line," the German statement says. "The British continue to make vain attacks with especial stubbornness near Ghinchy."

"The French again began to charge on their extensive attacking front but in the northern portion of our line the attack broke down completely."

More than 29,000 Rumanians were taken prisoners when Bulgarian and German troops captured the Rumanian fortress of Turtukal.

The official statement says that in the capture of the Rumanian fortresses more than 100 guns were taken. After heavy fighting with the Rumanians in the sector southeast of Lemberg, eastern Galicia, the Germans have fallen back in the sector between the Zlota Lipa and Dniester rivers.

**Russians Bombard Halicz**  
PETROGRAD, Sept. 7.—The Russians are bombarding the Galicia town of Halicz, about sixty miles southwest of Lemberg. The town is in flames.

The statement adds that Russian troops have occupied the railway lines between Halicz and Semikowitz and Wodniki.

In the fighting in eastern Galicia yesterday the Russians took 5000 more prisoners.

Turtukal, a fortified Rumanian town on the Danube about fifty miles southeast of Bucharest, has been evacuated by the Rumanians.

**Occupy Frontier Town**  
BUCHAREST, Sept. 7.—Rumanian troops have occupied Gyergyo-Ditro-Osova pass on the north and northwest frontier of Rumania. Seven guns, a number of machine guns and important ammunition stores were captured from the Austrians.

German and Bulgarian forces, having received numerous reinforcements, continue to attack with great violence the Rumanian fortress of Turtukal. The garrison of the fortress is ceaselessly counter attacking, the Rumanian statement adds, and the losses on each side are said to have been serious.

**Consider Trade War**  
WASHINGTON, Sept. 7.—Germany's plans for rehabilitating her foreign and domestic trade are not being made without regard for the trade war her enemies propose to wage when the armed conflict is ended. Official dispatches today made it certain that the allied trade drive will be met with the active cooperation of Germany.

While industrial Germany is reported as regarding lightly the threat of a trade war there are many evidences of the preparations being made to resist it. Large numbers of freight and passenger ships are being built, the

report says, and plans are being made on an immense scale to re-equip manufacturing plants with machinery of maximum efficiency. One effect of the war as seen in Germany has been to import processes and cheapen production. Women pressed into service as factory machine operators to meet drafts of men for the battle fronts are reported to have shown them much progress and have increased the productivity of machinery but in the interest of general welfare it will not be the policy to keep them in factories during times of peace. The government counts, however, upon the influence which the record of the war men will have upon the men returning to peaceful pursuits.

## DEFICIENCY BILL APPROVED

(Republican A. P. Leased Wire)  
WASHINGTON, Sept. 7.—The general deficiency bill carrying \$15,000,000 including \$2,000,000 for paying Nicaragua under the new treaty for an inter-oceanic canal route and coaling base, finally was approved by senate and house tonight as it came from conference. Among the items was one for the salary of George Rublee as a member of the federal trade commission for the fifteen months between his nomination and the senate action rejecting it.

been successfully gathered together under the amnesty act and are now training from Turron and Guadalupe for Oaxaca, where as loyal Carrancistas they will be incorporated in the army of Jose Isabel Robles. General Robles has been given the task of cleaning up Oaxaca. The rebels were little disturbed during the troubles with Villa and Zapata. The people living in the mining district of Pedernales, west of Chihuahua City have armed themselves to resist any attacks by Villistas.

**Merit for McDonough**  
DOUGLAS, Sept. 7.—Private Michael McDonough, Company I, Fourteenth Infantry, will probably receive a certificate of merit from the war department for his bravery in going into a cess pool today to rescue three drowning Mexican laborers. McDonough was overcome by the noxious gases and was later brought to ground by Frank Larison, a chauffeur. He was reported tonight at the base hospital in Camp Huay, J. Jones to be in a critical condition.

The fire department was called and brought out the bodies of the three laborers. The men were digging a new cess pool several feet from an old one which broke through the intervening earth. McDonough who was passing on the street, was called and attempted a rescue. The Mexicans were drowned.
